FOR EDUCATORS

NICHOLAS LINKE

author • designer • educator

NL

Nicholas Linke is an author, designer, and educator whose work explores the intersections of inquiry, science literacy, and monomyth.

With over a decade of experience teaching biology, philosophy, and STEM, he later transitioned into instructional design, leading professional development across national networks and contributing to statewide science curriculum architecture aligned with national standards and environmental stewardship.

Nicholas holds degrees in Biology, Philosophy, Secondary Teaching, and Curriculum from the University of Missouri and specializes in designing transformative, learner-centered experiences that blend story, science, and pedagogy.

MEMOIR ON EDUCATIONAL REFORM

Tangents is a personal reflection from over a decade in the public education system. Divided into six final lectures, **Tangents** covers topics from science and academia to parenting and politics.

~ 51,360 words

Audience: Educators, scholars,
and reflective practitioners
Comp: Teach Like a Pirate x
Uncommon Sense Teaching
Status: Published 2024

"Nicholas Linke is a brilliant, insightful educator who sees both the threats facing modern learning and the pathways toward empowering the next generation."

— Samuel Otten, Ph.D.

FLAGSHIP SESSION

PRISMS OF INQUIRY

A Framework for Student Autonomy

A practical session introducing your six-stage Prisms of Inquiry model showing teachers how to gradually shift from control to co-creation while maintaining rigor and clarity.

When Will I Ever Use This?

Anti-Apathy Weapons in the Age of AI

A workshop that helps teachers transform emerging career research into sustained inquiry, empowering students to connect coursework with real postsecondary pathways and interviews so they can see relevance and resilience beyond fears of AI-driven obsolescence.

Read the Comments

Argumentation over Online Arguments

3 powerful ways to use Claims, Evidence, and Reasoning with trending social media topics so students can craft informed, concise, and persuasive stances.

AUDIENCES
